

CAP-tivate Luxury

Innovative refining process

Our unique finishing technology gives your design the wow effect!

A high-quality product deserves exquisite packaging to underline its premium character. With our innovative new **CAP-tivate Luxury** decorative feature, you can ensure that your products stand out at the POS and set them apart clearly from competitor products. Our stamping foil solution offers a more cost-effective, quicker and environmentally-friendly manufacturing alternative compared with electroplating with unparalleled design variety.

Our extensive portfolio of high-gloss and matt metal and woodgrain designs or holographic

effects allows you to design your caps flexibly and individually. The brilliant surface finishing also creates a unique and noble elegance. Especially attractive: Bicolor looks are no longer a problem thanks to our patent pending CAP-tivate technology. This ensures that the customer is focused completely on your brand and your product!

We offer you an exclusive complete package: from consultation and design development, machine and tool supply, to subsequent support and maintenance.
